

## **ANIMALS ON SCHOOL GROUNDS**

No animal shall be brought onto school property without prior permission of the building Principal, unless such animal is considered a service animal (See Policy IMGA)

The School District is committed to providing a high quality educational program to all students in a safe and healthy environment.

The Principal, in consultation with the School Nurse, shall review student health records to determine which animals may be allowed in the school building. The decision of the Principal shall be final.

### **Educational Program**

Use of animals to achieve specific curriculum objectives may be allowed by the building Principal provided student health and safety is not jeopardized and the individual requesting that the animal be brought to school is responsible for adhering to any other conditions established by the Principal to protect the health and well-being of students.

### **Student Health**

The health and well-being of students is the District's highest priority. Animals may cause an allergic reaction or otherwise impair the health of students. No animals may be brought to school or kept in the school, classroom, office or common area that may negatively impact the health of any student who must utilize that area. Animals that cause an allergic reaction or impair the health of students shall be removed from the school immediately so that no student shall have their health impaired and each student shall have full access to available educational opportunities.
